DestroY QuickDesktop [Latest]

Quick desktop launches your favorite programs with the speed of light. Why use others... * Be Your Own Boss * Easy Work-life Balance * Less Need for Upgrading Windows Software * Save Time & Money - "It wasn't until a few days ago that I discovered the great power of DestroY. And I'm sure after using it for a while, my life will be easier, less time-consuming and less expensive." "I used to wait for my colleague's e-mail that I needed to open his presentation, then I would have to open up the application, launch PowerPoint, and then load his file. Now, since I've started using DestroY, he's just sent the presentation and I just hit the shortcut right away." "I always use Windows as a graphics and video editing tool, so it's no wonder I don't like the somewhat slow performance of VideoLAN Center. DestroY proves itself to be a very fast and easy replacement. And I've yet to find an app that can capture the same quality as the original on Windows, and I find it quite annoying to transfer it to OSX just for photo-editing." "I've tried numerous times to find a way to put all my music files on my desktop and then to simplify having to use Winamp to open them all, but there was always a catch. Then, when I discovered DestroY, I started enjoying "My Music" that way. The fact that it's all organized by date, genre and year is perfect. I can find every song I need instantly." Description for DestroY - Quickdesktop Launcher: "It wasn't until a few days ago that I discovered the great power of DestroY. And I'm sure after using it for a while, my life will be easier, less time-consuming and less expensive." "I used to wait for my colleague's e-mail that I needed to open his presentation, then I would have to open up the application, launch PowerPoint, and then load his file. Now, since I've started using DestroY, he's just sent the presentation and I just hit the shortcut right away." "I always use Windows as a graphics and video editing tool, so it's no wonder

What's New in the?

launcher that provides you with a quick way to create shortcuts and quick links to the programs and files you are using most frequently. to create shortcuts and quick links to the programs and files you are using most frequently. add a new item is a quick task that entails specifying the category, item type, description, the path and optionally the arguments if you prefer not to open the app visible. as a side note, the app automatically grabs the icon of the program, but you can also add a default one if it enables you to access it quicker. adding a new item is a quick task that entails specifying the category, item type, description, the path and optionally the arguments if you prefer not to open the app visible. as a side note, the app automatically grabs the icon of the program, but you can also add a default one if it enables you to access it quicker. destroY QuickDesktop offers a variety of features, including save and load data backup, set resolution, wallpaper, empty recycle bin, quick schedule and more.
